COVID-19: CAMPUS UPDATE  
Monday, May 4, 2020

The last month and a half have been a challenging and unprecedented time in the world and here at Dunwoody. As we enter the last two weeks of the Spring Semester, we wanted to update you on our planning process as we prepare for the Summer Session and the Fall Semester.

Last week, Minnesota Gov. Tim Walz extended the Stay at Home order for another two weeks, but at the same time announced plans to start easing restrictions for more businesses to return to work in a limited, and safe way.

Here at Dunwoody, we are putting plans in place that will allow us to safely resume hands-on activities in a socially-distanced learning and working environment. This Preparedness plan will be submitted to the State, posted on our website, and communicated to our employees and students prior to resuming on-campus activities.

As part of this process we will be rolling out several new safety protocols in the coming weeks to help maintain a healthy environment here on campus. These will include new standards around health screenings, Personal Protective Equipment, and cleaning and sanitization. Prior to implementation, we will communicate these changes to you.

Please continue to reach out if you have questions.

Thank you for your continued patience and understanding.
