CONSTRUCTION MANAGEMENT, B.S. TRANSFER GUIDE

2 YEAR COMPLETION DEGREE | ONLINE | FLEXIBLE SCHEDULING
LAPTOP AND ALL SOFTWARE PROVIDED | SPRING & FALL STARTS AVAILABLE

BUILT FOR INDUSTRY PROFESSIONALS.

Applicants are required to complete the full admissions process for admission to the Construction Management program. A cumulative GPA of 2.0 is required.

The Construction Management completion program is designed for students and working professional who need the flexibility of an online program that allows them to attend part- or full-time and finish at their own pace.

Students benefit from small-class sizes taught by faculty who have real-world experience in various construction fields. In addition, students enrolled in the program will receive a laptop loaded with state-of-the-industry software.

Dunwoody's Construction Management program helps position graduates for a wide array of managerial roles in the construction industry. This program is specifically geared for graduates from a two-year, construction-related program.

Learn how to successfully influence and lead teams, develop projects, and grow businesses from faculty who have all worked professionally in a variety of construction fields. Collaborate with others, complete real projects, and work with nationally recognized organizations and industry professionals.

Dunwoody maintains strong partnerships with industry leaders. Graduates benefit from life-time career placement support.

The transfer process is easy and open to all students who have completed an AAS degree in a construction-related field.

HOW TRANSFER CREDIT WORKS

Students who complete an associate’s degree in a construction-related program can receive transfer credits toward the degree requirements of Dunwoody College of Technology’s Bachelor of Construction Management program to advance your studies in the field.

BLOCK TRANSFER

Dunwoody’s Bachelors completion degree is intended to apply education from your technical program. We will accept a block transfer of up to 44 construction management or related degree credits from your institution to the technical course requirements at Dunwoody College of Technology. In addition, Dunwoody College of Technology will transfer up to 30 General Education credits from your college experience.

FOCUSED. MOTIVATED. DETERMINED.

At Dunwoody, you'll be surrounded by a community of people just like you: focused, motivated, and determined.

Whether you're continuing on after finishing your A.A.S. degree, or you're working professionally in the field and want to take the next step, you're on a mission. You're determined to learn, create, do, make, and refine.

If you bring the determination, we'll make sure you get the education.

FINANCIAL AID & SCHOLARSHIPS

Financial Aid helps bridge the gap between what students and their family can pay and what it costs to attend Dunwoody. Most Dunwoody students receive some form of financial aid, including federal and state grants, federal loans, and work study. Financial aid is available to students who qualify based on information provided in their Free Application for Federal Student Aid (FAFSA) form.

Dunwoody also distributes about \$2 million in scholarships each year. Each scholarship has its own criteria. To be considered for these scholarships, a completed FAFSA form must be on file with the Financial Aid Office. There are no separate applications for these scholarships. Students are notified through their Dunwoody email account if they are awarded a scholarship.

For more information visit:

[DUNWOODY.EDU/ADMISSION-AID/
SCHOLARSHIPS](https://www.dunwoody.edu/admission-aid/scholarships)

TRANSFER EVALUATION

Dunwoody accepts course credits from other regionally or nationally accredited higher education institutions. Transfer evaluations completed by other institutions are not accepted. Only course work earned at the institution issuing the official transcript will be evaluated. Courses will be considered for transfer if they meet the established criteria.

1. Send official transcripts from all previously attended colleges to Admissions department.
2. Registrar's Office evaluates official transcripts for potential transfer credits.

Students may be asked to provide a syllabus listing the course description and competencies of coursework or student work.

Transfer courses will have a grade of TR. Transfer credits will not be computed into cumulative GPA. However, they will impact student's Satisfactory Academic Progress pace for completion.

TRANSFER REQUIREMENTS

- The technical requirements will be reviewed by Dunwoody faculty for the application of a block transfer of credits.
 - *Up to 44 credits for Construction Management.*
- Cumulative GPA of a 2.0 or higher will be considered for the block transfer.
- The general education course(s) under consideration must be comparable in nature, content and level to a course offered by Dunwoody.
- Specific technical or mathematic courses taken outside of the last 5 years will be reviewed for content relevancy.
- Experiential Learning such as study abroad, independent study, workshops, field experience, and internships may or may not transfer, depending on the level and the comparability of the learning experience.
- Lower division credits may transfer as upper division if the course content and rigor is comparable and allows the student to meet the upper-division degree requirements.
